📅 7 Years 0 Month

Experienced and proficient in Software Development, javascript, html, microsoft azure, jquery, css, sql, react.js, ajax, rest, jenkins, node.js, linux, mysql, aws, docker, mongodb, typescript, web services, bootstrap, json, express, elastic search, graphql

Profile Summary

With over 7 years of experience in various roles such as Team Lead, Technical Consultant, Node JS Developer, and Solution Developer, I have honed my skills in a wide range of technologies including Angular JS, Node JS, JavaScript, RabbitMQ, Elasticsearch, MongoDB, MSSQL, PostgreSQL, and MySQL. I have led teams and worked on projects for major clients such as Microsoft and Google. My experience includes developing Partner Parts Order and Claim and Warranty Check modules, creating and consuming web services, and providing production deployment support. I have also developed new microservices for handling notifications, wishlists, and error detection. My proficiency extends to third-party integration APIs and developing test cases for different modules.
